Gary,

I will accumulate some data for you. I will try and have something back to you next week. Thanks, and good to hear from you as well!

**Subject:** San Jacinto River Traffic

Brian,

Good talking with you today. As I mentioned, the Army Corps of Engineers is doing a study on the San Jacinto Waste Pits, and has asked for some input on the ship traffic in the area. Whatever information you could provide would be appreciated, including average (or typical) ship speed, power, size, draft, and propeller information (diameter & whether ducted or non-ducted). Please let me know if you have any

9563145

questions on this. And thanks again for your help.

Regards,

Gary Miller
